Enrolling now you will get access to 0 questions in a unique set of Alaska - Class M Motorcycle License Test

Question 1

What's the best way to discourage other vehicles from trying to share your lane?

Options:

- A. Turning on your high beam headlights
- B. Increasing your speed
- C. Riding in the center lane position
- D. Coming to a sudden stop without any sort of signal

Answer: C

Explanation:

The best way to discourage other vehicles from trying to share your lane is to ride in the center lane position. This will make it clear that you are occupying the lane and that there is no room for another vehicle. It also helps you maintain a safe distance from other vehicles, as well as gives you more visibility of what's ahead. Additionally, it can help prevent any potential collisions or dangerous situations.

Question 2

A motorcycle can be parked in a space reserved for persons with disabilities:

Options:

- A. when it is carrying fragile or heavy cargo

<https://www.easy-quizzz.com/us/>

- B. only after riding in a staggered formation
- C. if it is equipped with disabled person plates
- D. when parking for less than ten minutes

Answer: C

Explanation:

Motorcycles can be parked in a space reserved for persons with disabilities if they are equipped with disabled person plates. This is because these plates indicate that the motorcycle is being used by a person with a disability, and thus should be allowed to park in the designated space. Other options, such as when carrying fragile or heavy cargo, riding in a staggered formation, or parking for less than ten minutes, do not apply in this situation.

Question 3

Your lane position should:

Options:

- A. avoid surface hazards.
- B. communicate your intentions.
- C. All the other answers are correct.

Answer: C

Question 4

You should use both brakes at the same time:

Options:

- A. every time you slow or stop.
- B. in emergencies only.
- C. None of the other answers is correct.

Answer: C

Question 5

In the 'Evaluate' step of the SEE strategy, you must think about:

Options:

- A. traffic markings and signals.
- B. road and surface characteristics.
- C. All of the above.

Answer: C

Question 6

A good way to handle tailgaters is to:

Options:

- A. Use your horn and make hand gestures
- B. Speed up to put distance between you and the tailgater
- C. Ignore them
- D. Change lanes and let them pass

Answer: D

Explanation:

The best way to handle tailgaters is to change lanes and let them pass. This will allow you to maintain a safe distance between you and the tailgater, while also allowing them to continue on their way. It is important to remember that it is not recommended to speed up or make hand gestures in response to a tailgater, as this could lead to an escalation of the situation.

Question 7

To avoid hazardous situations and reduce their risk, experienced riders:

Options:

- A. avoid riding at night.
- B. swerve often.
- C. search the road ahead.

Answer: C

Question 8

When preparing to pass the vehicle ahead, increase your line of sight by:

Options:

- A. increasing your speed.
- B. riding in the left lane position.
- C. getting the tailgater in front of you.

Answer: B

Question 9

In normal turns, you should:

Options:

- A. lean in the opposite direction
- B. None of the other answers is correct
- C. lean at the same angle as the motorcycle
- D. remain upright while the motorcycle leans

Answer: C

Explanation:

When turning on a motorcycle, it is important to lean at the same angle as the motorcycle. This helps to keep the bike balanced and allows for smoother turns. Leaning in the opposite direction or remaining upright while the motorcycle leans can cause instability and make it difficult to control the bike.

Question 10

The right foot pedal controls:

Options:

- A. the rear brake.
- B. the front brake.
- C. the throttle.

Answer: A
